STUDENTS VS. STAFF GOLF MATCH DRAW

Many Distinguished Names Among Contestants.

HUNDRED PLAYERS

Train for Dixie Leaves G. T. Station at 8.15 A. M.

The annual golf match between the staff and students of McGill University will be held on Friday morning, October 12th, that is, the morning of Sports Day. Through the kindness of the President and Directors of the Royal Montreal Golf Club, the splendid Club House and the two courses will be placed at the disposal of the players. If weather permit, both courses will be played over.

Grand Trunk, for the Dixie Station. Players will take the 8.15 train, and will be able to return to Montreal after luncheon, leaving Dixie at 1.58. Those going out by motor are requested to be on the links not later than nine o'clock, so that all matches may be finished on time.

Each member of the staff will entertain his student-opponent at luncheon, which will begin about 12.30. Members of the staff who are not members of the Royal Montreal Golf Club may secure tickets for luncheon at the Secretary's office near the entrance to the building.

The match will be played in singles, scoring by the Nassau system, one point for each nine and one for the match. The list of players and their opponents will be found below. Dr. Ruttan, assisted by Prof. Eve and Dr. C. F. Wylde, is in charge of the staff team, and Alan McCall who has done much of the preparatory work, is in charge of the staff team and aeffi charge of the student team.

It is essential that all students turn in their scores to the Secretary of the Golf Committee, W. L. Munn, McGill Union, in order that the team may be selected for the University of Toronto match next month. With reference to scoring, players are reminded that at Dixie the local rule re out of bounds is that one stroke only is lost.

Owing to the uncertainty of the relative merits of the various handicaps, it was difficult to place the teams in any proper order, but everyone is assured of having an interesting game.

The following is the draw.

GLEE CLUB HOLD PRACTICE TONIGHT

Divinity Hall at 7 o'clock.

The McGill Glee Club will hold a practice tonight at 7 o'clock, in Divinity Hall, on University St. The Club is going in full swing now, and has two practices a week, Monday and Thursday evenings. It has been decided to increase the membership this year to sixty, and as there are still quite a few vacancies, it is hoped more will turn out. Last year was a very successful one for the Club, and they are looking forward to even greater success this year. For the sake of variety, songs of several different types are practiced, including a number of new ones. As the practices is from 7.00 until 8.00, it will not interfere with plans for the latter part of the evening.

ROOTERS' TICKETS

Rooters' tickets for Saturday's game between McGill and Varsity will be on sale this afternoon between the hours of five and six in the Union. This will be the last opportunity for students to buy these tickets. The price is fifty-five cents and there will be no rooters' tickets sold at the gates before the game.

HAVE MORE TABLES IN UNION CAFETERIA

Anyone in the Union at noon would be of the opinion that the cafeteria is the popular choice of the student-body. Such is the case at that meal. The manager, Mr. Honeggar, reports quite favorably of the mid-day patronage. He wishes to draw to the attention of all that he has fitted out extra tables in the dining-room across the hall, for the service of anyone when the main room is filled. He stated that many more students can, however, be accomodated at breakfast and the evening meal. The Cafeteria is under control of the Students' Council, and the more that patronize it betters the resultant state of the Council fund.

GENERAL MEETING OF DAILY STAFF TO-NIGHT

There will be a meeting of the McGill Daily Staff to-night at half past seven in the offices of the Union. As it is not intended that the meeting shall last for more than an hour and a quarter, it should not be difficult for almost the whole of the staff to attend. All the men and women now doing work on the "Daily" are expected to be present, since it is the first meeting this year of its kind, and is of special importance to the new recruits. A short outline of the method of article-writing will be given, as well as hints on the securing of news and other important matters pertaining to newspaper work. After the talk and discussion refreshments will be served.

M.S.P.E. FRESHETTES 'AT HOME' ON FRIDAY

Notice is hereby given that Initiation takes place on Friday evening, October 12th at half past seven at the Hostel.

Each Freshette is commanded to bring the following articles:—

2 Bath Towels.
2 Safety pins.
1 Bib.
1 Green hair band.

Goloshes or rubbers are compulsary footwear for all day Friday. All Freshettes must have their pedal extremities reversed when going up or down stairs.

Any verdant one not heeding All laws will be brought before the Initiation Board. 'Nuff sed!

CLASS PRESIDENTS.

All presidents of college years are requested to meet at the Union this noon at one o'clock. The meeting, which will be held in the reading room, will be brief and the business demands the presence of the above mentioned representatives of their years.

THEALOGS AT CONVOCATION LAST NIGHT

Ceremony in Emmanuel Congregational Church.

Dr. SELBIE

Answers Question "What is the Good of Religion?"

The Congregational College Convocation was held last night in Emmanuel congregational church. After a short service the degrees and scholarships were awarded as follows:

The Marla Sawbel Memorial Scholarship, of the value of $30.00 to the student standing highest in the matriculation class, provided that he pass without condition, was awarded to E. C. Knowles. The same man also won the James Boyils bursary of $30.00.

The Robertson Macauley Bursary of $40.00 to the student in second year Arts having the highest standing in his class.—To E. B. Eddy.

The Rev. John Fraser Memorial Scholarship of $60.00 to the student having the highest standing in the sessional examinations of the final year.—To Ralph Collins.

Collins was granted his B. A. with distinction, also Cecil Whitmore. Mr. D. H. Moore was granted his M. A. He was also awarded the Charles Alexander Bursary of $35.00 for the highest standing in the Theological examinations of the first year and the Ottawa Jubilee Scholarship of $15.00 to a student of the first year for excellence in the English Bible.

It was greatly regretted that Mr. Murphy, the popular secretary of the college, was unable to be present, as he is suffering from a slight illness.

Dr. Ritchie of the Congregational College then introduced the speaker of the evening, the Rev. W. B. Selbie, of Mansfield College, Oxford. Dr. Ritchie welcomed the distinguished visitor to Canada in a few words, thanking him for arranging his itinery so as to attend the Convocation, though at much trouble to himself.

Dr. Selbie commenced his speech by saying that he felt quite at home in the church, since both his father and grandfather had been congregational ministers, while he himself was connected with the church in England. His subject for the evening he described as the answer to the lamentably common question "what is the good of religion and the ministry especially." He explained that this thought underlies much of the criticism of the church today. Religion is absolutely essential to sane human living. Without religion in some form, living is abnormal. Man cannot do without religion by any stretch of imagination, for religion is natural to him.

However, Huxley claimed that all primitive nations, such as the Borneo native tribes, the original Australians and the Patagonians, were entirely without religion, which was therefore an invention of men of higher civilization. However, this theory has been proved false, since these nations possess extremely complicated religions. Man has what may be called an instinctive reverence, and worships anything that frightens him, such as a curious stone or tree.

The repression of this religious sentiment makes the man suffer exceedingly from nerves and other similar diseases. Unless man cultivates his "religious capacity," he will suffer. Man must pray. On this Dr. Selbie stressed. Without religion man cannot comprehend the universe, a riddle whose only link is God.

Man, a spiritual being, is capable of using evil to good ends. As an exam-

ROOTERS A MYTH AT THIS UNIVERSITY

Rugby Team Feels Keenly the Lack of Support.

The entire University flunked last night. No, not in an academic way, but in a far similar matter, one of loyalty. The rooters failed to appear. This was the climax to two seasons of steadily flagging interest. Last year the rooting the enthusiasm at football games was less than the previous year. This fall the situation has been worse. By the showing yesterday, the only conclusion to draw is that Mcmen refuse to support a game to a—the team must win or forfeit all support.

Last Saturday the crowds at the Stadium saw a better exhibition put up by the Red and White team than has been seen here for two years. A

HAVE THE ROOTERS FAILED?

At seven o'clock last night we mentally decided that we need never write another editorial on college spirit. It simply was not needed. Everybody knew how to yell, "What's the matter with Old McGill. She's all right." College songs were being sung around the campus. General prospects were bright. The university world was booming. Everything was great, just great.!

——But by half past seven we had changed our mind During that short half hour we had been told enough to show us that things have come to a sorry pass. We had learned—and our teacher had been forcible—that the football men are not receiving the necessary support. They want it. They need it. And they must have it. Captain "Doug" MacGregor of the Seniors complained bitterly last evening about the lack of college spirit, the absence of enthusiam and the resultant discouragement in the fighting ranks. He stated that Coach Shaughnessy and the entire executive had similar feelings. Special reference was made to the absolute failure of yesterday's rooters' practice. The Daily had carried a front page article, which stated that the Thundering Thousand would be in in the afternoon. **The Thousand Failed to Appear, and Scarcely a Handful Turned Out to Support the Team.** The whole affair was an absolute fizzle, and to-day, where we should have written 'success,' we must write 'failure.'

Of course there are excuses and some of them have come to our ears already. The hour, for instance, is bad, because it is almost dark. Does not the team practice in the dark? Does not the team practice after dawn? Then, some say, there was not sufficient publicity. But, we ask, how many times does a real rooter need to be told to give his support? The answer should be 'one,' not 'three,' 'four,' or 'six.'

Moreover, and this is a very pertinent question addressed especially to the Sophomores, where were the yearlings? A certain ruling calls for their presence but they were not there. The blame lies at both doors, with almost equal distribution.

The affair is pitiful and everything in the power of each individual student must be done between now and the final whistle on Saturday. The Toronto Varsity refers to the McGill team as the "weak sister this year of the Intercollegiate series." Similar sentiments are being expressed in the halls of learning in the Presbyterian encampment. In the opinion of some of our contemporaries, McGill is already doomed to the lowliest position, but though we respect these sport writers, we would like to point out that their predictions are somewhat premature. The rooters can help to disprove these theories, as well as proving their own sportsmanship. It is the easiest thing in the world to cheer for a winning squad. It is somewhat harder to support faithfully a team that is apparently losing.

The McGill players we hope are not going down to defeat. But they need our support at all times. Now and in the hour of victory. They want our help. They are asking for it. And if we are true sons of McGill they shall get it **and Get it Now.**

CONDENSED COMMENT

The McGill Glee Club has commenced its activities and extensive plans are being made for the coming season. Last Year the Club met with decided success but the executive hope that even more will be achieved during the next few months. A membership drive is now in the planning process and if any man has hidden his singing ability, he should make his talent known and join the singing ability, he should make his talent known and join the ranks of the Club. This organization is worthy of support and the Daily hopes that a very successful season awaits the singers.

The Band practice yesterday was not well attended. Only about eight were there—remnants from last Saturday's good organization. This fact constitutes another disappointment in connection with team support. Where were the men that turned as so nection with team support. Where were the men who turend out so well for the Queen's game.?

College, by a H. S. Senior.

Colleges are generally built near a lot of fraternities. College men dress in football suits, big sweaters with their initials on, Arrow collars, Paris garters, and smoke big curved stem pipes. I know because I see their pictures in magazines. Their trousers are generally worn off to their knees because they wear them so long that they drag on the ground.

In college everybody plays a mandolin because the pictures in the magazines show them that way.

Fraternities sit around their tables drinking beer out of great big steins because my auntie told me so.

Everybody in college carries brass knuckles, billies, lead pipes, and big leather belts to cripple freshmen. I know because my uncle went to college and he won a free trip home for crippling so many freshmen.

There are professors in college too who try to teach things but none pays any attention to them.

The University has a supply of Microscopes, which it can sell to the students on the deferred payment plan. Students may purchase new microscopes through the Bursar's Office on depositing a signed agreement of sale and making payments as given below:—

	If purchased in 1st Year	If purchased in 2nd Year	If purchased in 3rd Year
1st Year..	$32.00	.....	.....
2nd Year..	25.00	$37.00	.....
3rd Year..	22.00	30.00	$45.00
4th Year..	20.00	25.00	40.00
5th Year..	10.00	22.50	30.00
	$115.00	$115.00	$115.00

May be purchased outright by a cash payment of $105.00

The Microscope is recommended equipment for medical students in the University. It was selected by the Faculty Committee after consideration was given to all other models and makes. We believe it represents the best in design and quality that can be bought at the price indicated.

REMARKABLE DECREASE IN REGISTRATION

Far Fewer Students Register at Toronto.

TRINITY GAINS

Higher Matriculation Requirements Cause for Drop

The registration statistics at Toronto show remarkable decrease in the number of students in every faculty. In 1922—23 there was a total of 5166 men and women students; this year there is 4265, almost 1000 less. No likely reason is given for this great falling-off in number, except in the case of the Arts faculties where the matriculation requirements for entrance have been raised.

The following from "The Varsity" gives the registration in the various faculties:

The total registration of the University this year is almost one thousand less as compared with last year's figures. Every faculty and college except Trinity, which has an increase of twenty students, shows a considerable decrease. University College has 142 students less than last year. In all probability this is due to the raising of the standard of matriculation requirements for admission to the Faculty of Arts, since Victoria College also has a decrease of 52.

Seventy women are registered in Medicine. This is a record figure. The total is 874 as against 988 for last year.

The Ontario College of Education has four students less than in 1922 and there are 139 women to 83 men.

The women are supreme in the Department of Social Service too, as only 6 of the 40 students are men. In Dentistry, however, there are 6 women to 460 men. The total registration has dropped to the extent of 260.

The figures for graduate studies are not complete. Registration in this department is not required to be finished till the end of October.

The figures for men and women in the various faculties this year and last year follow.

FRESHIES TO MEET FAIR FRESHETTES

Annual Conversat Takes Place Friday Week at Hall

What is the "Conservat," anyway. This is the question which is constantly being asked by freshmen, and possibly, by some few others who have not had the pleasure of attending the above-mentioned function in the past; it is only right that it should be answered, at least in part, at this time, since the great social event of the fall season is little over a week away.

The answer is, in short, that is is an opportunity offered by the social committee of the S. C. A. for the "fresh" men and women of the college to become acquainted with each other and with the older students. It has long been a very popular event, and has been largely attended every year. Needless to say, the evening is strictly informal; it takes place at Strathcona Hall, and is not a dance.

The programme is usually somewhat along the following lines: first a large number of men, including all classes from lordly seniors to tremulous freshmen assemble in the Hall and identify themselves by pinning on their names; then the ladies from the R. V. C. arrive in a body, with similar identification cards. The process of introduction is simple but efficient, since anyone can be approached and identified easily.

The evening is passed in conversing with the various partners who have been chosen. Time is not allowed to hang heavily on any one's hands, for just at the moment when one is becoming acquainted with one's partner, a signal announces the next conversat. Refreshments are served in the middle of the delightful entertainment, and at the conclusion of the programme a hearty McGill yell is invariably given by all present.

JUNIORS WERE NOSED OUT IN OPENING GAME

Loyola Settled Down Quickly and Scored First.

SCORE 13-12

Bazin Scored Touch; Gorrie Was Injured.

In one of the hardest games of several years in the Junior Intercollegiate series the McGill team went down to deafeat before the onslaught of the Loyola squad. The score 13-12 s good indication of the play. Not until first quarter Loyala kicked off to McGill who secured. After two bucks McGill team fumbled and Loyola securing, bucked its way to within striking distance of the opposing goal-line and a half-back sneaked across for the first touch-down, which was not converted.

In the second frame the McGill team had somewhat the better of the play and fighting hard they pushed back their opponents toward the goal-line and Bazin lurched six yards through the centre for a touch-down. This also was not converted. Playing straght rugby, both teams confined themselves to two bucks on the first two downs and a kick on the third. At the end of the first half McGill was threatening the Loyola goal.

In the third quarter the two squads see-sawed back and forth, the McGill team having the better of the play, scoring two rouges and a touch-down while the Loyola team was gathering two points.

The fourth quarter found the Loyola eam on the light end of a 12 to 7 score and they immediately started a clos' of the period the visiting team scored a rouge giving them a lead of one point which they held till the end.

The game was a hard-fought battle throghout and both teams used their substitutes freely and the fresh players kept the play very fast. For the visitors Montague and Suimaga carried a very large share of the line-plunging while O'Connor and Bannon performed in stellar fashion at outside. For McGill, Gorrie, Bazen, Cameron and Gill were the best, especially Gorrie who was injured at the end of the first half. His kicking and running was excellent while Bazen at Quarter played a fine game and could be depended on for five yards in almohhhhhh hhrsuOyf arjrdrlrrdrdlrdlur most every attempt. Cameron's tackling, catching and returning of punts and tricky dodging was one of the fine points of the game. The two teams lined up as follows:

ROOTERS' BAND HAS NEW MARCH SONG

The Students' Council has consented to help publish the new McGill March Song, by Willard Crocker. It has not yet been played in public.

The song is very well composed and has a snappy swing. It will be played for the first titme at the Varsity-McGill match, by the Rooters' Band.

A few of the Rooters' Band turned out last night to practice his song. The parts are furnished, at considerable expense, by the Students' Council.

Friday, being a holiday, it is doubtful whether a practice could be held on that date, therefore a full turnout is asked for the practice to be held at 5 p.m. to-night in the Union Music Room, in order to learn the march.

Unfortunately, Bandmaster Gagnier is out of town, but in order to avoid difficulties, his brother, M. Rene Gagnier, also a musician of note, has been engaged for this evening. Bandmaster Gagnier will be back in time for the game on Saturday.

High compliments were paid to the Band on their last Saturday's performance, some saying that it was the best for many years. If this is to be kept up, every bandsman must turn out for practice to-night.

All those who could not turn out last week are asked to do so to-night if they intend to be with the band on Saturday.

Admission to members is free, so all turn out at five to-night.

ORGANIZATION OF COLLEGE SOCCER

Interfaculty League possible if Interest is Shown.

The first meeting of the McGill Soccer club was held in the Union yesterday afternoon. The business commenced with the election of officers and faculty representatives. A motion asking Prof. Dodd to become the Honorary President, was passed. A. Bickford was unanimously elected President. R. H. King was made Secretary-Treasurer, while H. T. Airey, the acting manager, was asked to continue in that capacity.

The Faculty Reresentatives were as follows:

Medicine .. .. Stockhausen
Science .. .. H. Johnson
Arts .. .. Eldrige
Commerce and Law .. .. Seaton

The meeting decided that an annual fee of one dollar would be necessary to meet the various expenses. The question of an Interfaculty League was brought up, but it was decided to postpone the matter until the next meeting, as there were not enough members present to gaurantee five teams.

A fine opportunity is open for men eager to play soccer to join the club now, as an Intercollegiate team will be formed if there is sufficient interest taken in it.

WATER POLO ENTHUSIASTS START WORK

Fair Turnout Last Night at Rubenstein Bath.

SWIMMERS PRESENT

Bourne and Vernot Covered Distances in Fast Time.

Last night the water polo teams held their first real workout at the Rubenstein baths, when about a dozen men turned out and were directed by Coach Vernot. Up to the present the practices that have been held have been very poorly attended, but last night's turnout was considerably more encouraging.

For many years McGill has been successful in turning out excellent water polo teams, and it is hoped that this year will be no exception. There is no doubt that during the last few seasons a great measure of the success in both swimming and water polo has been due to the splendid assistance of Mr. Vernot, who has worked unceasingly to educate the new men and perfect the experienced ones. Any new man to the college who have had previous experience in water polo are expected to report to the Rubenstein baths any afternoon at five o'clock; and any men who would like to play the game will also have the opportunity of the very best of coaching.

A few swimming trials were held last night, and it sems evident that McGill should not lack representatives in this branch of sport. With two swimmers of such repute as Vernot and Clayton Bourne there ought to be little difficulty in getting a fairly good team together, considering the fact that there is a large number of other promising men to chose from. Bourne appears to be going better than ever; he is at present in his freshman year, so should be able to strengthen the McGill swimming teams for several years to come.

A fair number of last year's poloists were out—noticeably former intermediates. The ranks of the senior team are seriously depleted, and will be rather difficult to fill. Among the former players were Jim Ross, Moore, Vickerson, Kyle and others. All showed the effects of lack of practice but will round rapidly into form.

RUGBYISTS PLAY THEIR FIRST GAME

Montreal English and McGill Meet.

McTIGUE CUP

Mapole, Wilson and Holmes Give Good Exhibition.

The result of yesterday afternoon's game speaks well for the growing popularity of English Rugby at McGill. Although the Montreal English men turned up at 4.45 p.m. with only half a team, Captain Harry Marpole was able to put his own team in the field and make up for the deficit in the other team. The ground was in good condition and not sticky as might be expected after the rain.

The Montreal English kicked off and followed it up with a strong forward rush but the ball was fielded by MacDonald, who tried to run through with it. He was tackled and passed forward. In the scrum following the half back was too eager and picked up the ball in the scrum. A free kick was given against McGill. This was only a temporary advantage for their opponents. Marpole fielding the ball brought the play back to the half way mark. After this the play stayed mostly in the middle of the field. The Montreal forwards, at first, seemed to have the advantage in getting the ball in the scrums but, as the McGill men warmed up, the foot-work became much better. They seemed to have benefited from their practice very well. About the middle of the game Foulkes of Montreal English made a good run, picking the ball up in a loose scrum and carrying it past the Red and White twenty-five yard line. However it was soon carried back at the feet of their forwards.

For the rest of the game the play was up and down the middle of the field, neither of the teams having much advantage. Towards the end however, Holman managed to get the ball from the scrum and made a spectacular run to within the yards of the Montreal line. Here there was a scrum down but when the ball came out it was kicked to the dead line. The game was called as the light was bad, leaving both sides without any score.

The McGill three quarters made a very good showing. They have lots of speed and their passing was good. For McGill, Wilson was always at the head of the forward rushes. Holman playing three-quarter did fine work and Marpole when he got the ball showed fine bursts of speed.

The Montreal English team can hardly be commented upon as it was composed of half McGill men. However they are sure to give a stiff fight for the cup. Among their men Foulkes made a good showing, getting some good runs and kicking well. After him Miller nd Brown were the most noticable men of their side.

The date of the game with the Montreal English for the McTigue Cup is not known yet as Varsity has not advised when they will play.

The Club is taking advantage of the holiday Friday and requests all men to turn out for a good work-out at 11 a.m. that day.

COMMERCE FROSH ARE ENTERTAINED

Big Brothers Purchase Sandwiches for Crowd.

Yesterday, after the twelve to one lecture, the Commerce freshmen were entertained by their sophomore friends at a very informal luncheon, after which all paraded up to the Stadium. The youths were distinguished by the fact that they were all attached to a long rope. A small six man band of musical freshmen was organized to lead the class. Noticeable among the instruments were tin horns and small drums. The class numerals were painted on every fresh forehead and other well-known colours were prominent on the same spot such as green for freshness and red and white for McGill.

The band led the class down to Sherbrooke St. all telling the passers by that McGill had a freshman class. Outside the Ritz Carlton Hotel, cheers were given for Lord Renfrew, who though supposed to be, was not there.

En route to St. Catherine St. one frosh attempted to escape. His punishment was short—the clippers cut off his manly locks so quickly that he barely realized what had happened. This was the only time that the Soph. barber had a chance to practice his trade, the freshmen valuing their hair more than their freedom.

The parade wandered down St. Catherine St. to Victoria Square. Having surrounded the monument and given a final M. C. G. plus an interchange of cheers from rushed to rushers, all the freshmen had their shoes removed and left in a heap. Then they were left to shift for themselves.

RESULTS OF YESTERDAY'S ELIMINATIONS

Outlook is Bright for Intercollegiate Contests

TWO NEW TEAMS

U. of M. and Western Enter Tournament.

The tournament has so far been very successful and the executive greatly appreciates the interest and promptness that have been shown by all the contestants. Today there will be several long strenuous matches, but most interest will be taken in that between Morrice and Leslie. They are expected to stage a hard battle. Leslie has perhaps the greater speed, but Morrice is deadly on placements, both at the net and from the back court. The fact is that they both have several championships to their credit, and are anxious to add that of McGill to their list.

There is little doubt as to the result of the upper and lower divisions, although Ramsey and Douglas will make fine, the courts will be in excellent condition and very fast tennis should be played.

Tomorrow morning at eleven o'clock the finals will be played in the centre court. Linemen will be needed. P. Douglas will act as referee.

Speculators have chosen for the finalists W. Crocker and Wright, but, as in other games, the unexpected often happens. An excellent brand of tennis will be provided, and doubtless an exhibition will be played later in the morning.

It is the hope of the executive and the other members of the club that all who can will try to see the matches, for a large number of spectators will be an incentive to the contestants. There is plenty of room, and it is hoped that chairs may be procured.

The intercollegiate meet will be held in Toronto on the 18th, 19th, and 20th of this month. There will be two new teams this year, as the U. of M. and Western University of London, Ont., have both sent in entries.

The following are yesterday's Results:

P Douglas beat Jo Puddicombe, 6-0, 6-3
C Leslie beat Johnson, 6-2, 6-3
C. Ramsay beat Taylor, 6-0, 6-1
D .Morrice beat Copland 6-0, 6-0
W. Crockey beat M. Ridour 6-0, 6-3
J. Wright beat D. Puddicombe W. O.
T. Brown beat Wickman 6-8, 6-3, 7-5
T. Brown beat J. Gordon 6-4, 6-2
J. Perry beat L. Sessenwein 6-8, 6-2, 6-0.

To-day's Draw.

KEEN COMETITION FOR TRACKMEN

Good Fields in All Events on Friday.

A large turnout and very keen competition is assured for the University Meet which is scheduled to take place on Friday October 12th. at 2 P. M. at the Percival Molson Memorial Stadium. Medicine, and Science and Arts have about an equal number of entries and the Faculty which will carry off the largest number of points will have to work hard for that honour.

The following are the entries, many of whom have not yet passed their medical examination for this year. The last chance to take the examination will be offered today from 12 to 1.30 P. M. at Molsons Hall and all entries who have not yet been examined this year will have to do so today or be barred from participation in the University Meet.

RECORDS IN DANGER OF SHATTERING

Saturday May Find New Marks Established.

GABOURY STRONG

Will Make Effort to Repeat Success of Last Two Years.

To-morrow all lectures will be cancelled and Sports Day will take place. This year it will be a true day of sport. Not only will the track meet be held in the afternoon, but but a golf match between professors and students and the finals of the tennis tournament are also on schedule. These are the major events, and undoubtedly there will be other athletics of various kinds which will owe their existence to the general holiday.

The chief centre of interest, however, will be the track meet at the Stadium. It will take the form of a competition between the various faculties. Last year this meet was very successful, although it was decidedly subordinate to the Intercollegiate Meet which followed it a week later. With the big meet taking place in Toronto this year, everyone should show those who are trying for the team most enthusiastic and whole-hearted support.

Yesterday's practice was a stiff one for all who are running to-morrow, and excellent form was displayed by most of the men. Coach Van Wagner expressed the opinion that the records in the pole vault, high jump, long jump, and three miles will be in danger, and he would not be at all surprised to see one or more of them broken. Last year four records were broken in the Inter-Faculty Meet, and all of the men who participated in this shattering are still present in college. The men referred to are Gaboury, Kennedy and Wiggins: Gaboury has increased the mark in the pole vault two years in succession, and there is every reason to believe that he will do so again. Kennedy set up a new standard last fall when he added five inches to the broad jump record, while Wiggins cut fifteen seconds off the former three mile mark.

The meet was won by Medicine, who scored fifty points: Science were able to pile up just thirty points while Arts, Law and Commerce and Macdonald College followed in the order named. This year the entry lists would seem to show that Science have an excellent chance, although Medicine will make a strong effort to hold their advantage.

The first event to-morrow is scheduled for 2.15, and the meet should be over by about four-thirty.

M.S.P.E. ENTERTAIN TORONTO VISITOR

Mrs. Naismith Head of Margaret Eaton School.

The students of the McGill School of Physical Education yesterday enjoyed a visit from Mrs. Naismith the head of the Margaret Eaton School of Literature and Expression, Toronto. It is interesting to note that the Margare Eaton School is the only other School of Physical Education in Canada besides that of McGill.

Mrs. Naismith gave a pleasing address to the students in which she set forth the ideals and aims of the profession. The address was received with must interest, the students showing their appreciation by hearty applause and greetings were sent from the M. S. P. E. to their sister students in Toronto.

OPPOSITE EXTREMES

Most freshmen enter the portals of University hall on registration day with "general education" as their incentive, the key to their advancing period of college education (if such they make). Knowing a little of everything and not much of anything, too many seniors dismount their high horse on the platform of Hill auditorium, sheepskin in hand and take their place among the multitude of other generalities who are struggling for existance.

A broad, general education, long accepted as the worthy successor to narrow and classical learning, not infrequently degenerates into a state of questionable value when such great numbers of graduates lack any sort of definite training or information. As was stated previously in these columns Princeton University has seen the impending trouble which lies in the way of the continued success of the system now prevalent throughout the United States, instituting a plan which calls for greater specialization in some one field of study than was previously required. Breadth just like anything else has its limits and should be the aim of every institution of learning in the country to see that no curriculum oversteps these bounds lest the men and women in our present universities be as narrow in their broadness as were the biased scholars of the middle ages.

TRIGONOMETRY

Trigonometry is my "Jonah."
I shall not pass;
It maketh me to lie down on a bed of thorns,
It vexeth me in my sleep,
It worrieth me in the law of sines and cosines for its angles sake.
It leadeth me into befuddling cogitations and causeth many sorrowful tears to trickle down my manly cheeks.
Cutting deep furrows in the flesh-coloured powder so artfully besmeared thron.
Year though I burn much midnight oil and study with much weariness of flesh,
Thy tangents toxant leads arodoi
Thy tangents and coasangents they torment me.
But I will take refuge in a "campus course,"
With a girl both stately and slender,
Whose face shineth as a full moon and eyes with a starry splendour.

NEARLY ALL REGULARS IN GOOD FORM

Hughes Returns to Squad To-night.

HANNA OUT

Toronto Team Keeps Up Heavy Workout.

After the tired Junior squad had quitted the field of battle last night the Senior and Intermediate squads trotted out to go through their daily dozen. All the players were on hand except Hughes and Philpotts. "Phil" is still not in condition to turn out and it is rumoured that he may not play in Saturday's game against Varsity. Hughes is out of the hospital where he has been receiving treatment for several days and will be out to practice tonight. Hanna, whose infection is leaving rapidly, engaged in the workout and it is hoped that he will be able to play Saturday; although Mr. Shaughnessy declines to make any statement regarding him. His speed and dodging would greatly strengthen the backfield, which, from the Queens-McGill game seems to be the weakest department of the team. In the event of Philpotts not being able to play it is probable that his position will be played by Mickles, whose work in practice is of an exceedingly high standard.

After a good signal practice the Seniors were sent against the seconds for an hour. The McGill line has always been more or less strong but the back division has to be given a great deal of attention by the coaches to eliminate every possible weakness and Coach Shaughnessy spent considerable time on it last night.

The news from the Varsity camp is still very scanty but they hope to trounce Queens, which also means McGill. McGill is thought up Toronto way to be the "weak sister" of the Intercollegiate series and it would be considerable upset to the Varsity hopes if they were turned back Saturday. They are not taking any chances however and Coach Coryell gives his proteges a hard work-out six day's of each week both in conditioning them and in teatching them his system of interference Varsity will be well prepared when they meet McGill at the Stadium but it is thought by local authorities that it will be a much closer game than the last one, if not a complete upset of "the dope."

Then if ever come perfect screams!
One cat tries another in fight
And all the neighbors wake from their dreams.

Oh, two cats howled the other night!
Then, if ever, my roommate and I
Threw open the windows and let out the light
And stood decolette with shoes on high.

Oh, two men hurled their shoes at night!
Pfeat! and never came cats again.
But alas, for us! for our mighty right
Had thrown the shoes in the garbage can.

On the other hand, the student who has had the ability to distinguish between the important and unimportant points has before him for review an outline of the important work of the course. Minor matters have been disregarded. He can cover the major points thoroughly, and his results will show the wisdom of this course.

Note-taking is a science. There is almost as much danger in taking too many notes as in taking too few. The power to pick out important points, developed in classroom note-taking, will be invaluable in later life.

ROOTERS A MYTH AT THIS UNIVERSITY

Continued from Page 1

virile eager team took the field against the Dominion Champions, and after paying real rugby, the men played the last five minutes with as much zest and strength as they had displayed in the first quarter. The team was a well balanced hard working aggregation. That same team against Toronto should win. That team next year should easily clean up the Intercollegiate association. But this year is the time to consider, and the game Saturday the most outstanding even at present. Blame cannot be laid entirely on the freshmen years as this year has supplied the greater part of rooter support. Quite apparently, however, these freshmen have shown their loyalty under compulsion only, as yesterday when the compulsion was not in evidence neither was the loyalty.

In three upper years are the most serious offenders. Freshmen here for only ten days may plead ignorance, or general lack of interests early in the term. Men here previous years have no such excuses weak as the best of them are. Second third and fourth year men who are too busy or too important to attend rooters practices McGregor's remarks are a treat to must be of a rather sorry order, Doug, hear. The present attitude of the college students resembles that of 'tin horn sports" who turn out to get cheap tickets but fail to fulfil the oligation the use of those tickets entails. That is "Doug's" idea at least and and that reflects the general opinion of the team.

The rooters' leaders are waiting for the next move to come from the rooters. If the chaps really are in earnest, they can take action towards the executives and acquaint the cheer leaders with their intentions. It would be rather interesting to learn to night how many classes had pledged themselves—not someone else—themselves to make the Thundering Thousand actually a thousand strong.

THEALOGS AT CONVOCATION LAST NIGHT

(Continued from page 1)

ple. Dr. Selbie told of two families, who both suffered bereavement in the war. One family complained continually of their hard lot, and made life miserable for all near them, while the other suffered their loss with resignation, showing a brave and cheerful front to the world. Evil may sour one man while it strengthens another. Every man knows what he should do, bt only God can teach him how to do it. Man needs God in order to be a man. The chief actor in the world's progress is religion. Therefore it is clear that to further the cause of religion is the noblest thing a man can undertake.

Dr. Selbie complained that the average man practised religion too seldom. In any athletics, one must play constantly to be at the 'top of his form.' Why not with religion? It needs more sacrifice, sweat, toil, to be religious but it pays.

Dr. Ritchie thanked Dr. Selbie for his clear address. He took the opportunity to invite all present to meet Dr. Selbie in Stevenson Hall, where refreshments were served. Many who had heard Dr. Selbie speak on "Theology and Modern Thought" in R.V.C. the day before took this opportunity to meet him personally.

Among those present were Dr. Fraser, Dr. Rexford, Mr. C. Gurd, Rev. Geo. Adam, Rev. H. Carson, Dr. Lighthall, Pro. Caldwell, Dr. Gordon, Dr. Rose, Dr. Gifford, Dr. Graham and Dr. Munson Hill.

The telephone rang with persistency. The doctor answered the call of a tired husband. "Yes, he said. "Oh, doctor," said a worried voice, "something seems to have happened to my wife. Her mouth seems set and she can't say a word."

"Why she may have lockjaw," said the medical man.

"Do you think so? Well, if you are this way some time next week you might step in and see what you can do for her."
